## To Our Friends And Customers:

After thirty years in business I do not know words to express my appreciation for your continued patronage.

At first we grew a few items on a few acres; now we are trying to grow too many items on too many acres. We plan to discontinue some of the items that we have grown in the past due to the fact that we now have thousands of seedling camellias that we are featuring. In addition to our new plantings, our older plants require spacing. Our watering facilities are limited. For this reason we are offering our stock of Broad Leaved Evergreens, Coniferous Evergreens, Deciduous Shrubs, Shade Trees, Azalea and majority of Camellia.

We expect to grow Camellia in the future as in the past, but to promote our new seedling varieties and offer additional new varieties each year. We offer four of our new introductions in this list. We think each to be outstanding in its flowering season. They have added much to my collection.

We hope that you will like them so well that you will want to add our varieties as we introduce them in the future.

We think our prices most reasonable and invite you to visit us if possible, as we have items to offer that we do not have in quantity to offer here and space will not permit.

Thanking each of you for your past patronage and an opportunity to serve you again in the near future.

Sincerely yours,

CENTRAL GEORGIA NURSERIES

## TERMS AND CONDITIONS OF SALE

**Prices**— Prices quoted are F. O. B. Nursery. Per each quoted net. 50 at hundred rate. Specimen Broadleaved Evergreens, Camellia and Azalea will be B&B. Smaller sizes and deciduous shrubs are bareroot.

If to be shipped, boxed and bales will be charged for at actual cost labor and materials. With exception of New Seeding Camellias offered which we ship at no extra cost. No charge if loaded on trucks.

**Transportation**—We will ship as you request. Railway Express, Freight or Motor Freight. Our responsibility ceases when goods are turned over to carrier. Risk and cost of transportation belong to purchaser.

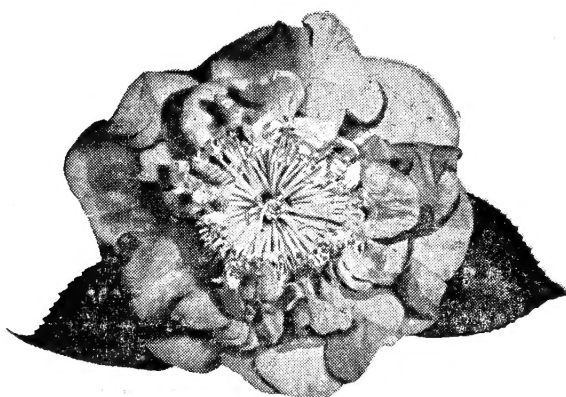

**Terms of Payment**—Cash in full with order if for immediate shipment. Or 25 % deposit with order, as guarantee of acceptance and balance at time of delivery.

**Condition of Sale**—Prices herein cancel previous quotations. All quotations are for immediate acceptance and subject to prior sale. We exercise the greatest care to keep our varieties true to name. We will replace all stock that proves otherwise. Or will refund the purchase price. We handle our plants with utmost care and if given proper care in transplanting and thereafter they should live and grow well for you. Since we have no control over weather hazards, insect control and care given our plants after they leave our hands, we cannot guarantee the life or productivity of same.

**Claims**—All Claims must be made immediately upon receipt of stock. We will be glad to rectify any mistake made by us, but in no case will our liability be greater than the purchase price.

# NEW SEEDLING CAMELLIAS

After twenty years of growing and flowering Camellias from seed, we are pleased to offer this season in limited quantity four of our outstanding originations. These are not entirely new in middle Georgia, as hundreds of our friends have had the pleasure to see them flower while we held them under observation. If they will do as well for others as they have for us, they will add much to any collection. As they have to our present collection of more than five hundred varieties. These four varieties flower throughout the season, September through March. We offer in group of four 12 to 18 inch Grafts for \$70.00, a saving of \$10.00. Or as priced below if wanted singly.

**R. L. WHEELER**

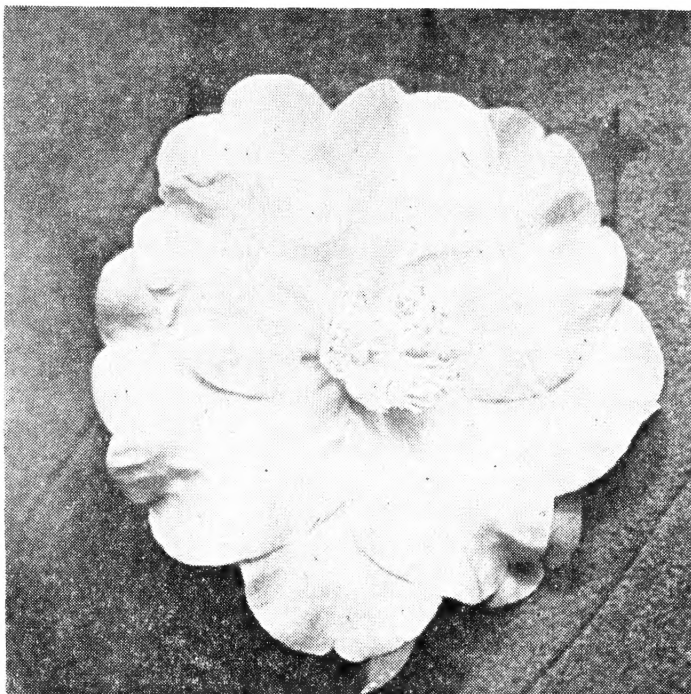

(Pat. Applied for. Serial No. 158173)

**R. L. WHEELER**, Flowers very large, average 6 inch semi-double rose. Heavy convoluted guard petals, numerous heavy circular stamens like in Diatarin. Petaloids form around base of stamens and outer guard petals. Strong upright grower. Ten day old flower best in Augusta, Ga. Show, Feb. 1949, competing with over 2500 entries. Largest of foliage, exceeds 4x6 inches. This flower won 19 awards in seven shows in 1949 and 1950. It is an exquisite flower. Blooms midseason.

Grafts on heavy understock.

--------------	---------	--------------	---------

There is a U. S. Patent Pending on this camellia: therefore warning is hereby given against any asexual reproduction or disposition by sale, gift, or otherwise, or scions, buds, or cuttings for such reproduction of this plant without permission in writing from Central Georgia Nurseries.

**EDDIE G. WHEELER**

**EDDIE G. WHEELER**, Gorgeous soft light to medium pink. Flowers 4 to 6 inch semi-double, with circle of golden stamens. This flower has a beautiful sheen that glistens in the light. Its combination of form and color makes it a most magnificent camellia. Foliage medium size oval cuspidate, crenate. Very slow compact grower and most prolific. Often 1 year grafts flower. 2 year grafts mostly budded and compact. Midseason.

# Camellia Japonica Grafts

We offer the following list of Camellia Japonica grafts. Among these are one, two and three year old grafts. They are grafted mostly on Camellia seedling stock that has flowered. These understock will vary from finger size to one and one half in caliper.

Some of these varieties are by no means rare, but in many instances we grafted certain scions because we noted a difference from its parents.

Since we are offering the majority of our stock we likewise are offering these grafts.

We are not quitting the Camellia game but must make space for the expansion of our seedling Camellia trial grounds We expect to specialize in development and promonotion of new seedling varieties in the future.

We offer this season four of our new varieties that you will find in this list. We have had them under observation for several years and think them to be among the best. They will add much to your present collection.

This list covers about two thousand grafts. Some we have only in limited quantities. First come, first served.
